☒ State Agency ☐ Other: _____

DISCUSSION

The BFI - Chemical Services site is an operation and maintenance office for BFI. Hazardous waste activity does not occur at the facility nor is there evidence of such activity ever occurring at the facility.

Due to the lack of hazardous waste at the site, the BFI - Chemical Services site does not meet the minimum criteria of a viable candidate for inclusion on the Superfund National Priorities List; therefore, the site is designated a disposition of No Further Remedial Action Planned (NFRAP), and at this time does not warrant further investigation under Superfund.

This site is being referred to the State of Texas for any appropriate action under the state's regulations.
